

HUACA MELODIC

A Huaca is a multiple chamber flute with a unique windway system. They have a drone and two melody chambers, each with more than an octave. The Melodic Huaca is chromatically tuned and works with a crossfingersystem. The front chambers have each 4 finger holes and 1 thumbhole, which together give an octave + 1 note., the drone has none. Because this flute doesn't use the cross fingering system it's easier to play. All music played on the NAV can be played on this flute too. Because a vessel flute is a whole octave lower than open flutes, a comparingly small instrument can already produce beautiful, low notes...
